***The sofa becomes Area, the space
where life happens and evolves.***

Area design Studio Pastina

Con Area abbiamo esplorato i confini dell'idea tradizionale di divano per realizzare un prodotto innovativo, leggero e sofisticato. L'ambiente del relax assume un nuovo carattere diventando lo spazio in cui la quotidianità della vita evolve. Grazie alla collaborazione tra i designer Studio Pastina e il Centro Ricerca e Sviluppo Midj è nata una collezione trasversale che accosta morbidi cuscini in tessuto ad una struttura in metallo fine e rigorosa. La sua cifra stilistica essenziale non sacrifica la percezione di comfort e si inserisce con grande carisma nel linguaggio dell'arredamento contemporaneo.

La cura italiana per i dettagli

In Midj amiamo verificare con cura certissima ogni dettaglio, ci soffermiamo con meticolosità in ogni particolare con la pretesa che sia impeccabile. Così anche la collezione Area, estremamente raffinata dal punto di vista tecnico, è il frutto di un processo scrupoloso in cui niente viene lasciato al caso. Il progetto, la tecnologia e la ricerca dei materiali sono tutti finalizzati alla perfezione nel segno distintivo del made in Italy. Perché è solo soffermandosi sui dettagli più nascosti che è possibile raggiungere quella semplicità apparente che ne caratterizza l'essenza.

Italian attention to detail

In Midj we love to check every detail with painstaking care, and we meticulously dwell on every detail with the insistence that it be flawless. And so also the Area collection, extremely refined from a technical point of view, is the result of a scrupulous process in which nothing is left to chance. The design, technology and research of materials are all aimed at perfection in the hallmark of "Made In Italy." Because it is only by dwelling on the more hidden details that it is possible to achieve the apparent simplicity that characterizes its essence.

Quando il tessuto diventa poesia

Area è una coccola per chi la vive. Il gioco di cuscini dona allo spazio una sorprendente morbidezza, trasformandolo in un nido accogliente in cui lasciarsi andare. Le soffici imbottiture vestono con disinvoltura i tessuti della collezione Midj, le cui trame sempre diverse disegnano il movimento dei cuscini, rivelando ogni volta la loro unicità.

When the fabric becomes poetry

Area is a big cuddle for those who live it. The play of cushions gives the space a surprising softness, transforming it into a cozy nest in which to let yourself go. The soft padding casually dresses the fabrics of the Midj collection, whose different textures draw the movement of the cushions, revealing their uniqueness each time.

Divano - Sofa

Il carisma irresistibile del divano Area sposa l'atmosfera distesa delle aree lounge metropolitane ma incontra anche le nuove tendenze abitative internazionali. Forme, colori e materiali innovativi, declinati nelle versioni due o tre posti, raccontano di un design da vivere ogni giorno.

Pouf

La severa struttura in metallo del pouf Area fa da contrappunto al morbido cuscino di seduta rendendolo un elemento d'arredo raffinato, che arricchisce lo spazio con un tocco di leggerezza. Nella versione panca, estetica e funzionalità si fondono in un design dalla cifra stilistica inconfondibile.

The severe metal structure of the Area pouf acts as a counterpoint to the soft seat cushion, making it a refined piece of furniture, which enriches the space with a touch of lightness. In the bench version, aesthetics and functionality come together in a design with an unmistakable stylistic code.

***Soft and gentle, like the corolla

Calla design Fabrizio Batoni

Interpretando l'idea del designer Fabrizio Batoni abbiamo realizzato una collezione dalle linee morbide e gentili, come la corolla del fiore che le dà il nome. I petali di Calla si sovrappongono delicatamente per accogliere chi si siede, regalando un'avvolgente sensazione di comodità.

Il design coniuga la leggerezza della silhouette con l'originale armonia delle curvature per dare vita ad una collezione essenziale, contemporanea ma al tempo stesso di grande carattere.

Interpreting the idea of the designer Fabrizio Batoni, we created a collection with soft and gentle lines, such as the corolla of the flower that gives it its name. Calla petals gently overlap to accommodate those who sit, by giving an enveloping feeling of comfort. The design combines the lightness of the silhouette with the original harmony of the curves to create an essential collection, contemporary but at the same time with great character.

Uno per tutti

Quando l'amore per un prodotto ben fatto e la cura di ogni dettaglio sono condivisi con il progettista, allora nascono collezioni dal segno distintivo destinate a durare nel tempo. Calla porta l'inconfondibile firma del made in Italy: una collezione semplice ma ricercata che fa della versatilità il suo punto di forza. La scocca, nella versione sedia o poltroncina, incontra sei diverse tipologie di base, in metallo o in legno, entrambe personalizzabili nei colori e nei materiali. Una collezione dal design trasformista che risponde alle diverse esigenze del vivere contemporaneo, dagli spazi di lavoro a quelli destinati alla convivialità fino agli ambienti home living.

One for all

When love for a well-made product and the care to every detail are shared with the designer, then collections with a distinctive mark are created, destined to last over time. Calla bears the unmistakable signature of made in Italy: a simple but refined collection that makes versatility its strong point. The shell, in the chair or armchair version, meets six different types of base, in metal or wood, both customizable in colors and materials. A collection with a transformative design that responds to the different needs of contemporary living, from work spaces to those intended for hospitality or perfectly suited to home living environments.

Il design morbido

Realizzata in polipropilene, la collezione Calla esalta le linee semplici e le rotondità sinuose che caratterizzano il design. La sua anima essenziale e funzionale diventa calda e rassicurante nella versione imbottita: il tessuto può rivestire l'intera scocca o il solo cuscino di seduta, giocando così con colori a contrasto o gradazioni tono su tono che la rendono ora vivace ora raffinata.

Soft design

Made of polypropylene, Calla collection exhales the simple lines and sinuous roundness- that characterize its design. Its essential and functional soul becomes warm and reassuring in the padded version: the fabric can upholster the entire shell or just the seat cushion, thus playing with contrasting colors or tone-on-tone gradations that make it lively and refined.

Sedia - Chair

Comoda, leggera, versatile. La sedia Calla unisce la semplicità del design a dettagli di carattere prestandosi a molteplici situazioni d'uso. Essenziale nei piccoli spazi, sorprendentemente vivace nelle conference room con le sedute linkate dal gancio distanziatore.

Comfortable, lightweight, versatile. The Calla chair combines the simplicity of design with detailed character details and it lends itself to multiple situations of use. Essential in small spaces, surprisingly lively in conference rooms with the seats cleverly linked by the spacing device.

Poltroncina - Armchair

Come un fiore che si schiude, la poltroncina Calla rivela la sua seduta comoda e accogliente. Quando la scocca in plastica e il cuscino in tessuto si fondono in una sinergia delicata, il design diventa più prezioso e il comfort ancora maggiore.

Like a flower that blossoms, the Calla armchair reveals its comfortable and welcoming seat. When the plastic shell and the upholstered cushion come together in a delicate synergy, the design becomes more precious and the comfort even greater.

Sgabello - Stool

Con un design morbido e il particolare schienale alto, lo sgabello Calla traduce il concetto di comfort nei contesti informali. Diverse altezze e due versioni di seduta, con o senza braccioli, definiscono la sua anima versatile che sa allinearsi alla personalità dell'ambiente in cui è inserito.

With a soft design and the peculiar high back, the Calla stool "translates" the concept of comfort in informal applications. Different heights and two seat versions, with or without armrests, it defines its versatile soul that knows how to align with the personality of the environment in which it is inserted.

La nuova sfida Midj, i complementi

In Midj ascoltiamo le esigenze del vivere contemporaneo e le traduciamo in soluzioni d'arredo che sono espressione del saper fare italiano. Sedie, tavoli e da oggi una collezione inedita di complementi di design per arredare ogni area del vivere: dalla cucina al living dalla camera all'home office fino ai nuovi spazi del lavoro e dello stare insieme. Decorativi ma anche pratici e versatili, i complementi Midj permettono di progettare gli spazi tra estetica e funzionalità nel segno del nostro design da vivere.

Abbiamo creato, insieme a giovani designer emergenti, una collezione unica in grado di evocare atmosfere autentiche dove design e praticità si uniscono in complementi dai colori, dai materiali e dalle finiture completamente personalizzabili. Si fa strada una nuova dimensione dell'abitare interamente firmata Midj con un catalogo sorprendente che conferma il coraggio di perseguire quella vision aziendale che punta ad essere un brand italiano dell'arredamento contemporaneo di design.

The new Midj challenge, the complements

At Midj we listen to the needs of contemporary living and we translate them into furnishing solutions that are an expression of Italian know-how. Chairs, tables and now an unprecedented collection of design accessories to furnish every living area: from the kitchen to the living room, from the bedroom to the home office to the new workspaces and areas of being together. Decorative but also practical and versatile, Midj accessories allow you to design spaces between aesthetics and functionality in the name of our design to live. We have created, together with young emerging designers, a unique collection capable of evoking authentic atmospheres where design and practicality come together in complements with completely customizable colors, materials and finishes. A new dimension of living entirely signed by Midj is opening up with a surprising catalog that confirms the courage to pursue that corporate vision that aims at being an Italian brand of contemporary design furniture.

***Localizzazione assoluta.
Una scelta controcorrente nel segno dell'unicità.***

L'Italia per noi non è solo un luogo di produzione ma va ben oltre: è il modo di pensare e di vivere che abbiamo abbracciato nel progettare, interpretare e innovare l'idea di arredamento fin dal 1987. Non solo Made in Italy quindi ma una perfetta sinergia tra maestria artigianale, creatività e tecnologia che rendono il nostro modo di lavorare il valore aggiunto in ogni nostra creazione.

***Absolute localization.
A different choice
to be unique.***

Italy does not just define a place of production, but goes beyond: for us, it indicates a way of thinking and living, that we embraced in designing and innovating the idea of furniture since 1987. Not just Made in Italy, but a perfect synergy between hand - craft modeling, creativity and technology, that makes our working method the added value in each product.

Arti e mestieri 4.0.

L'artigianato industriale come elemento distintivo.

Se capacità industriale e tecnologie avanzate sono la nostra forza, la maestria nel fare è la nostra anima, ciò che davvero ci distingue. Il saper fare rappresenta il cuore della nostra azienda: grazie ad esso tutti i nostri progetti prendono vitalità e slancio, a partire da una vocazione artigiana che viene ininterrottamente coltivata e perfezionata.

Crafts & arts 4.0.

The industrial craftmanship as a distinctive element.

If industrial capacity and advanced technology are our strength, the know-how skill is our soul, what really sets us apart. The know-how is the heart of our company: thanks to it all our projects take vitality and outburst, from a handcrafted vocation that is continuously cultivated and perfected.

***High quality solutions.
La perfetta corrispondenza tra aspettativa e risultato.***

Nelle nostre collezioni ricerchiamo continuamente la trasversalità, la possibilità di una soluzione totale alle esigenze dello spazio pubblico e privato. Esploriamo tutte le declinazioni possibili per risolvere con coerenza il vostro progetto d'arredo. Ogni collezione Midj si trasforma grazie a materiali e colori innovativi e continuamente testati.

***High quality solutions.
The perfect match
between expectation
and result.***

In our collections we constantly search versatility and the chance to find a complete solution both for public and private spaces. We look for all possible solutions to solve your furniture project. Each Midj's collection is shaped with brand new materials and colours, that are always tested.

Cuoio Toscano - Tuscan Hide

Cat. CT

Il Cuoio Toscano non teme di mostrare i segni lasciati dal tempo che lo rendono un prodotto unico.
È un materiale ricavato dalla pelle di animali che hanno subito un processo denominato "concia al vegetale" con tannini naturali e con l'ausilio di prodotti biologicamente compatibili sia per la tintura in botte che per la rifinitura.
Eventuali imperfezioni, segni, cicatrici, macchie della superficie del Cuoio Toscano sono una naturale caratteristica dello stesso che ne garantisce l'originalità.

Tuscan Hide does not fear to get aged since the oldest it gets the more unique it becomes.

It is a material deriving from animal's leather which suffer a process called "vegetable tanning" with natural tannins and with the help of some products biologically compatible whether for the dyeing or for the finishing.

Any possible imperfection, sign, scar, stain of the Tuscan hide surface are a natural characteristics which guarantees its originality.

Cuoio Toscano - Tuscan Hide

Il Cuoio Toscano non teme di mostrare i segni lasciati dal tempo che lo rendono un prodotto unico.
È un materiale ricavato dalla pelle di animali che hanno subito un processo denominato "concia al vegetale" con tannini naturali e con l'ausilio di prodotti biologicamente compatibili sia per la tintura in botte che per la rifinitura.
Eventuali imperfezioni, segni, cicatrici, macchie della superficie del Cuoio Toscano sono una naturale caratteristica dello stesso che ne garantisce l'originalità.

Tuscan Hide does not fear to get aged since the oldest it gets the more unique it becomes.
It is a material deriving from animal's leather which suffer a process called "vegetable tanning" with natural tannins and with the help of some products biologically compatible whether for the dyeing or for the finishing.
Any possible imperfection, sign, scar, stain of the Tuscan hide surface are a natural characteristics which guarantees its originality.
