REVOLUTION

Collections manufactured by recovering and recycling plastics from the Mediterranean

IBIZA
BY EUGENI QUITLLET

This is the first collection we launched by recovering and manufacturing recycled fishing nets from the Mediterranean Sea. Eugeni Quitllet was inspired by the idyllic natural surroundings of Ibiza, where he spent his childhood, to design a unique Mediterranean inspired collection. Wave shaped liked pieces that also simulate seashells.

BY EUGENI QUILLET
BROOKLYN

The Brooklyn Chair is available in three Revolution colours: Milos, Cala and Manta. We obtain Manta colour from recollecting and processing fishing nets from Mediterranean fishermen and transforming them into durable and recyclable products.

EVOLUTION

The Revolution's white is called Milos (on the right photo) and it is the result of transforming recycled plastics from our Mediterranean coasts. Our designs are created with a soul.

Cala (on the right photo) is a bright but also warm colour obtained from processing plastics from the Balearic Islands and transforming them into lasting and recyclable products.

BY EUGENI QUITLET
PEDRERA

In our VONDOM Revolution range, we manufacture our products using recycled plastic from the Mediterranean Sea, extending it's life and enhancing it's real value. Due to the origin of this raw material slight natural imperfections may appear, which gives every piece it's own personality and spirit.

DE- SIG- NERS

Marcel Wanders

Suave, Venus.

Born in Boxtel, Wanders graduated cum laude from the Hogeschool voor de Kunsten Institute of the Arts Arnhem in 1988 after being expelled from the Design Academy Eindhoven.

In 2000 he opened his studio in Amsterdam, gaining attention in 1996 with his Knotted Chair, which paired high tech materials with 'low tech' production methods and in 2001 Wanders co-founded the design label Moooi., of which he is co-owner and art director.

Marcel Wanders' chief concern is bringing the human touch back to design, ushering in what he calls design's 'new age,' in which designer, craftsman and user are reunited. In his process, Marcel Wanders defies design dogma, preferring instead to focus on holistic solutions rather than the technocratic. In this universe, the coldness of industrialism is replaced instead by the poetry, fantasy and romance of different ages, vividly brought to life in the contemporary moment.

Ramón Esteve

Tablet, Pixel, Gatsby, Kimono, Faz, Frame, Quartz, Ulm, Vineyard, Vela.

Ramón Esteve Cambra is Architect and Designer, arising one facet as a consequence of the other. In 1991, he founded Ramón Esteve Estudio with the premise that architecture is a global discipline. His training as an architect became a transversal vision where Architecture and Design form one single concept, almost inseparable, both generated under the same laws and the same design premises. Its aim is the development of complete environments through a mutual interaction between both disciplines, so design acts on architecture and vice versa and the importance and difficulty of both disciplines are equally acknowledged.

Eugeni Quitllet

Ibiza, Love, Bum-Bum, Africa, Brooklyn, Wall Street, Mari-sol, Pedrera, Bloom, Manta.

The Catalan designer Eugeni Quitllet was born on 17th April 1972 in Ibiza. He graduated from 'La Llotja' art school in Barcelona. Through his creative vocabulary he exceeds simple relationships between function and style unveiling innovative objects. Between drawing, sculpture and contemporary archaeology, Quitllet literally reveals silhouettes hidden in the material, extremely visual skeletal objects elegantly master fullness and emptiness often with a touch of humour: the Masters chair combines the 3 contours of legendary seats by Eames, Saarinen and Jacobsen, the K Ray lamp is an organic UFO, a network of veins hollowed out of the material which results in an object suspended in a frame, his signature method prevalent naturally in several of the designer's projects: the Shine vases, the Light Air lamp, the O'Clock lamp, without forgetting the O Ring watch, a hole in time in the true sense, best seller of the brand Fossil modernising watchmaking codes. Eugeni Quitllet is a design world freak capable of devouring the whole of our environment in his own way to serve it up to us transformed.

Fabio Novembre

And, F3.

He was born in Lecce in 1966. He moved to Milan in 1984, where in 1992 he received a degree in architecture. In 1993 he lived in New York City where he attended a movie direction course at the New York University. In 1994, he was commissioned to design his first project: the "Anna Molinari Blumarine" shop in London. In the same year he opened his own studio in Milan. From 2000 until 2003 he worked as Art Director at Bisazza, contributing in the international growth of the mosaic tile brand.

"plastic means "capable of being shaped" and that's exactly what is my feeling when I approach a design in plastic. There's an expressive freedom that rarely happens with other materials.."

Ross Lovegrove
Biophilia.

Ross Lovegrove is a designer and visionary who's work is considered to be at the very apex of stimulating a profound change in the physicality of our three dimensional world. Inspired by the logic and beauty of nature his design possess a trinity between technology, materials science and intelligent organic form, creating what many industrial leaders see as the new aesthetic expression for the 21st Century. There is always embedded a deeply human and resourceful approach in his designs, which project an optimism, and innovative vitality in everything he touches from cameras to cars to trains, aviation and architecture.

Jorge Pensi Studio
Delta.

Born in Buenos Aires in 1946, he studied architecture in his home city. He left Argentina in 1975, dreaming of new horizons and challenges. After crossing the ocean, he settled in Barcelona and became a Spanish citizen . In 1977, he went into partnership with Alberto Lievore. They worked together until 1984. He then set up his own studio in Barcelona's Gothic quarter. Pensi believes that part of his professional success is due to the intimate, close and warm relationship he has with his team and his clients, allowing shared project development with optimum results. Jorge Pensi has given conferences, seminars and workshops all over the world. Jorge Pensi has been awarded numerous prizes and has received widespread recognition throughout his career, including the Spanish National Design Prize in 1997, awarded by the Ministry of Industry and Energy for outstanding professional achievement. H e has recently become known for his other passion, music, which he had kept to himself until recently. He has released two albums as a composer and singer.

Ora-ïto
UFO.

Born in 1977, this iconoclastic artist became globally famous at the end of the 90's by hijacking in 3D the products of the most emblematic and international brands such as Vuitton, Apple, Nike, Bic... Furthermore thanks to numerous publications in the press, the fiction turned into reality. When customers tried to purchase these imaginary products, the orders flooded Ora-ïto's web site. This became the second digital work ever acquired by the National Funds of Contemporary Art (FNAC). During the years 2000, Ora-ïto dedicated himself to his own studio and the creation of real products, by developing transversal projects of nearly all the business sectors of design, architecture, communication, and so on.

His creations conceal the codes of a new luxury, timeless and universal with the same minimal working drawing: evident forms to be understood in flash, fruit of his philosophy.

Stefano Giovannoni

Archirivolto Design
Fiesta, Pezzettina, Spritz.

Claudio Dondoli - Marco Pocci, Italy. Archirivolto was founded in 1983 by Claudio Dondoli and Marco Pocci as an industrial planning, design and architecture studio. While studying Architecture in Florence, Claudio and Marco and some friends put up an experimental theatre group. When they decided to focus their joint efforts on design, consolidating their ties of friendship, their interest in theatre strongly influenced the setup of their new studio, drenched in creativity, sense of reality, respect and attention for the public.

Karim Rashid

He is also regularly featured in print and digital platforms by media companies like CNN, Vogue, Elle, GQ, The New York Times, and countless more. This reach allows Karim to fulfill his ambition of disseminating the importance of design in everyday life.

Karim established his private design studio in New York City in 1992. He expanded his global reach with a studio in Shenzhen, China in 2014. In his spare time Karim's pluralistic practice flirts with art, fashion, and music and is determined to creatively touch every aspect of our physical and virtual landscape.

Oscar+Gabriele Buratti

Kes.

Gabriele Buratti (1962), architect and professor of interior design at the Facoltà del Design of the Politecnico di Milano (2003-2010), and Oscar Buratti (1967), architect, have founded the architecture and design studio BURATTI ARCHITETTI.

The studio is transversally involved in projects of different scales, from the architecture of buildings and urban areas to interiors, from furniture and product design to exhibition and showroom design, in an intense and varied professional path, in which themes, locations, brands, people, materials and workmanship mingle together contaminating one another.

They design residential, commercial and industrial buildings, they carry out projects in historical city centres and refurbishing measures of building complexes, they design villas and interiors of working, residential, retail spaces, in Italy and abroad, with the aim of combining culture with professional specialization, experimentation with technique and an original vision with a high standard quality.

A-cero

Wing, Rest, Alma.

Joaquín Torres (*1969) - Rafael Llamazares (*1970), Spain. A-cero Joaquín Torres architects company established in 1996 whose activity focuses on complete development of architectural projects. The human team, led by Joaquín Torres and his partner Rafael Llamazares, has been growing throughout the past year and sums up to more than 60 professionals spread out through different offices Spain, UAE Dubai, Dominican Republic, currently working on projects of different magnitude. "Our working method is based on a detailed analysis of the clients needs and the projects programme: we imagine, project and persuade. "The key to our success is that we stick to the initial idea through out the whole process.

Roberto + Ludovica Palomba

Bones.

Ludovica+Roberto Palomba's work has always been rich of cultural references. Their projects are derived from observations of change in human behavior. Their mission is to generate products that merge function, innovation and longevity - intimate and emotional connections that last. "We believe that good design already exist in a sort of collective unconsciousness and our task is to mold and deliver them". A truly successful piece of design must feel fresh but not unfamiliar when it is discovered.

Estudi{H}ac - JM Ferrero

Vases, Marquis.

In 2003, José Manuel Ferrero founded estudi{H}ac to give life to all the ideas that appeared unceasingly in his head and in just 16 years he has turned his design workshop into a national and international reference. The passion he puts into his work is evident from the very beginning. Discreet, cultured, elegant and immensely creative, for Ferrero design is a way of life that keeps the mind fully active in terms of creativity.

We could say that the British term "bespoke" is the dogma that governs each of the Valencian businessman's designs, as he creates pieces and elements tailored to each project.

Eero Aarnio

Peacock, Roulette, Rosinante.

Aarnio studied at the Institute of Industrial Arts in Helsinki, and started his own office in 1962. The following year, he introduced his Ball Chair, a hollow sphere on a stand, open on one side to allow a person to sit within. The similar Bubble Chair was clear and suspended from above. Other innovative designs included his floating Pastil Chair (similar to a solid inner tube),[2] and Tomato Chair (more stable with a seat between three spheres). His Screw Table, as the name suggests, had the appearance of a flat head screw driven into the ground. He was awarded the American Industrial Design award in 1968.

Aarnio's designs were an important aspect of 1960s popular culture, and could often be seen as part of sets in period science-fiction films.[3] Because his designs used very simple geometric forms, they were ideal for such productions. Eero Aarnio continues to create new designs, including toys and furniture for children. Eero Aarnio opened his official webshop and first Design Eero Aarnio Showroom, in Helsinki. There you can find Aarnio's latest design, prototypes and latest news.

Teresa Sapey

Adan, Chrismy, Chemistubes.

Studio Teresa Sapey is an architecture and design studio based in Madrid since it was founded in 1990. The team's guiding force streams from curiosity and energy. In fact, the range of fields approached by this practice is extremely broad: It varies from spaces to displays via furniture, graphics and editorial works. Projects not only stem from feelings, but they are also capable of transmitting these same emotions to their clients and customers. "By working with spaces my aim is to be touching and therefore render emotions palpable: Three-dimensional, even four-dimensional. No matter the feelings is, as far as it is a feeling, I would go for it! I believe that architecture should interpret, build and transmit these inspiringly and usefully"

Javier Mariscal

Sabinas, Noma, Blanca, Mora.

Javier Mariscal is, First and foremost, an image creator who develops his work using all kinds of supports and disciplines. Furniture design, painting, sculpture, illustrations, interior design, graphic design, landscaping, gardening and so on are all the object of his professional, vital activity. He has collaborated with companies such as Memphis, Akaba, Bidasoa, BD Ediciones de Diseño, Moroso, Nani Marquina, Vorwerk, Equipaje, Alessi, Sangetsu, Magis, Cosmic, Amat3, Santa&Cole, Lali que and Phaidon. Mariscal expresses himself using a personal language that is complex in its intention and simple in its statements, innocent yet provocative, that he uses to innovate, risk and communicate. He enjoys provoking the eyes that look at his works and creating complicity with them.

Harry Paul

Bye-bye.

Known for projecting mysterious objects, exemplars of vibrant design of the 21st century, his resulting design approach concentrates on experimentation with materials, technologies and lines.

Harry Paul works across a wide range of disciplines, from furniture (in- and outdoor), lightning and table top, to textiles, watches and golf shoes, to architectural & interior/stand commissions and unique sculpture pieces for clients world wide.

Born in Breda, the Netherlands, class 1966, industrial designer with a degree from the Design Academy Eindhoven (former AIVE), where he, before graduating, 1992, under Lidewij Edelkoort and Axel Enthoven, won the 1st price in the European design competition for leisure of GE Plastics with a proposal for a custom made protective sports equipment.

Agatha Ruiz de la Prada

Agatha.

Agatha Ruiz de la Prada first stepped into the fashion world in 1981. The collection proved to be such a success that she soon opened her first studio-shop in the Spanish capital and started to participate in fashion shows in Madrid and Barcelona. Although Agatha gained a certain level of recognition early on in her career, her true fashion breakthrough came when she allied forces with one of Spain's most important department stores, El Corte Inglés. Thanks to this partnership, the designer's collections were soon distributed throughout the entire national territory. Having conquered Spain, Agatha little by little started to cross borders and gain international recognition by means of her fashion shows and exhibitions and then expanded the family of products: clothes, furniture, perfumes...

A family which, although being light offer stability thanks to their geometric and well-defined cut, as if they were sculpted from stone. The collection includes a sofa, an armchair, a chair, a chair with armrests, a table and a small table. It is a functional collection due to its collapsability and design.

Una familia de productos que a pesar de ser ligeros, aportan estabilidad, a través de sus cortes y geometrías bien definidas, como si se tratara de piedra esculpida. La colección esta formada por un sofá, butaca, silla, silla con reposabrazos, mesa y mesa baja. Una colección funcional gracias a su apilabilidad y diseño.

- Place the item on a flat surface to avoid uncontrolled movements.
- Keep the item far from excessive heat sources.
- The product is not a toy. To avoid accidents, do not allow children to play with it.
- Keep furniture away dust to keep it clean, if cleaning is required we recommended the use of pressure washers, such as KARCHER'S and/or domestic degreasing cleaner periodically. Never use abrasive or corrosive products.
- To preserve the product, we recommend the usage of VONDOM cover for every item.
- In the case of lacquered products, we recommended car wax every 2 or 3 months, as it will avoid the appearance of possible scratches.
- Outdoor cushions are available only some models. We recommended you clean them periodically with a cloth and basic soap and water.
- Clean the stainless steel parts with appropriate products.
- When changing bulbs, please make sure the cord is not connected to the main power.

HANDLING AND CARE

VONDOM covers are impregnated to resist water, oil and dirt, functioning to protect the furniture. They are not recommended as a permanent cover for cushions, as moisture may collect and lead to the formation of mold stains. Furniture and cushions should be thoroughly dry before using the covers. Please note that the covers are especially tailored to your furniture item and precise placement is required. In order to increase the circulation of air and avoid the formation of condensation, the covers are not made to floor length. Never pack or fold covers that have become wet; instead, let them dry in a well-ventilated place. Use a soft cloth and warm water to clean the covers, using a gentle upholstery cleaner if necessary. Rinse with clear water. Solvents are not suitable for cleaning the covers as these are aggressive to the surface and may cause damage and discoloration.

INSTRUCCIONS_ Product Description

- 1.- Water tank level indicator, verifiable at any time.
- 2.- Expanded clay works as drainage. This will prevent stagnation, control water flow & assure root aeration.
- 3.- Vegetal soil.
- 4.- Self-watering base where the plant absorbs the water.
- 5.- Water tank.
- 6.- Option of wheels o feet.

INSTRUCCIONS_ Planting Instructions

- Set a fine layer of about 2 or 3 cm. in deep of expanded clay on the base of the self-watering base.
- Add the vegetal soil for plants in the flowerpot, leaving space for the root ball of the plant.
- Planting the plant in the flowerpot, previously aerating the roots in order to favour its growth. Finish filling the flowerpot with vegetal soil & press down on the soil with your hands to make it perfectly compact.
- Water the plant on the soil. In the following weeks, please water the plant over the top as the roots of the plant have not reached the platform layer of the self-watering apparatus yet, where the water tank is stored.

RECOMMENDATIONS

After this period of adaption for the roots, fill the water tank until the top very slowly until the indicator reaches the maximum level. If there is no water, the indicator will be at the minimum level, check the indicator level regularly. The period of watering depends on the flowerpot size, plant type and its location. Consult it with a professional in the sector.

INDOOR (White Led and Led finishes)

For indoor use, need to check if the stopper of drainage is placed before planting the plant.

OUTDOOR

For outdoor use, please take off the stopper of drainage (Light and Led finishes) and drill the holes at the indicated mark, bearing in mind the position of the water tank (Basic, Self-Watering and Lacquered) and also in the base of the flower pot, so that if it rains, the water overflow will evacuate and not harm the plant.

If you cover the soil with a fine layer of stones, it will stop the moisture from evaporating and improve its aesthetic appearance. For fertilizing and better care of your plants, consult your gardener or your garden centre. VONDOM, accepts no responsibility for any damage done to the plants caused by the incorrect use of flowerpots.

- Manténgala alejada de fuentes de calor excesivas.
- El producto no es un juguete. No permita que los niños jueguen con ellos, para evitar accidentes.

USO Y MANTENIMIENTO

Las fundas Vondom son impermeables y repelen el agua, el aceite y la suciedad y sirven para proteger el mueble. Pero no sirven para cubrir los cojines de forma permanente porque se puede formar humedad junto a las costuras de la funda y dejar manchas de moho en la tela. Antes de utilizar las fundas, el mueble y los cojines han de estar secos. Tenga en cuenta que las fundas están adaptadas especialmente a sus muebles y es necesario colocarlas correctamente. Para aumentar la circulación de aire, las fundas no llegan al suelo. No guardar o doblar las fundas húmedas, dejar que se sequen en un lugar con buena ventilación. Para limpiar las fundas utilice un paño suave, agua caliente y un producto de limpieza suave si es necesario. Después lávelas con agua. Los disolventes no son aptos para la limpieza de las fundas porque pueden atacar, dañar o decolorar la superficies a tratar.

INSTRUCCIONES_ Descripción del producto

- 1.- Indicador de nivel de agua del depósito, comprobable en todo momento.
- 2.- Arcilla expandida, actúa como drenaje. Evita el estancamiento, dosifica el transporte del agua y garantiza la aireación de las raíces.
- 3.- Tierra vegetal.
- 4.- Base de autorriego donde la planta absorbe el agua.
- 5.- Depósito de agua.
- 6.- Opción de ruedas o patas.

INSTRUCCIONES_ Instrucciones de plantado

- Ponga una capa fina de arcilla expandida de unos 2 ó 3 cm. de grosor sobre la base del autorriego.
- Añada la tierra vegetal para plantas a la maceta, procurando dejar un hueco para el cepellón de la planta que quiera plantar.
- Plante la planta en la maceta aireando previamente las raíces para favorecer su crecimiento. Acabe de rellenar con tierra vegetal la maceta y presione bien la tierra con las manos para una perfecta compactación.
- Riegue la planta sobre la tierra. En las próximas semanas tendrá que regar por encima, ya que las raíces de la planta no han llegado hasta la capa de la plataforma del autorriego, donde se encuentra el depósito del agua.

RECOMENDACIONES

Después de este período de adaptación de las raíces, llene el depósito de la reserva del agua al máximo, muy lentamente hasta que el indicador del agua suba hasta su nivel máximo. Si no hay agua el indicador estará al mínimo. Compruebe periódicamente el nivel del indicador del agua. El período de regado depende según el tamaño de maceta, tipo de planta y de su ubicación. Consúltelo con un profesional del sector.

INTERIOR (acabados Led Blanco, Led RGB)

Para uso interior se tiene que comprobar que el tapón del drenaje esté colocado antes de plantar la planta.

EXTERIOR

Para uso en el exterior se tiene que sacar el tapón del drenaje (acabados Led Blanco, Led RGB) y taladrar los puntos de precorte respetando la reserva del agua (acabados Basic, Lacado y Autorriego) y en la base de la maceta, ya que si llueve el agua sobrante podrá evacuar y no dañará la planta.

Si cubre la tierra con una capa de piedras de jardinería, evitará que se evapore la humedad y mejorará su aspecto estético. Para el abonado y un mejor cuidado de sus plantas, consulte en su tienda especializada o a un profesional del sector. VONDOM, no se hace responsable de cualquier daño ocurrido en la planta debido a un mal uso de sus macetas.

the designer

Eugeni Quitllet

The Catalan designer Eugeni Quitllet was born on 17th April 1972 in Ibiza. He graduated from 'La Llotja' art school in Barcelona. Through his creative vocabulary he exceeds simple relationships between function and style unveiling innovative objects. Between drawing, sculpture and contemporary archaeology, Quitllet literally reveals silhouettes hidden in the material, extremely visual skeletal objects elegantly master fullness and emptiness often with a touch of humour. Eugeni Quitllet is a design world freak capable of devouring the whole of our environment in his own way to serve it up to us transformed.
