*Solutions for
agile working*

**Including many
planning examples**
for various
applications

ABOUT SEDUS

Who we are and what we do

Sedus Stoll AG was founded in 1871 and is one of the leading European manufacturers of office solutions. The product range includes seating furniture, such as swivel and visitor chairs, as well as office, conference and contract furniture – all “Made in Germany”.

The company headquarters is located in Dogern on the High Rhine in southern Germany. Another production site is in Geseke, North Rhine-Westphalia. Sedus is a company with a long tradition and over 150 years of company history that has repeatedly set standards – in terms of ergonomics, manufacturing processes and sustainability. As a synonym for innovation, technology and aesthetics, Sedus constantly enriches the “office world” with new product ideas and contemporary concepts. Sedus puts a strong focus on current trends and changes in the world of work. New organisational structures and forms of work require flexible, aesthetic furnishings and custom-made solutions that enhance collaboration, communication and movement. A particular emphasis is placed on the health and well-being of the users.

For further information, go to www.sedus.com

With our solutions,
we support people
in expressing their
genius at work.

Why se:lab?

se:lab enables
more flexibility
for your daily tasks

Simply practical –
all furniture is
intuitive to use and
**reduced to
the essentials**

In 2020, the three most sought-after
competencies were:

#1 Problem solving
#2 Critical thinking
#3 Creativity

[Source: Sedus INSIGHTS N°6]

Light and modern design

tubular frames

As agile as your team

se:lab adapts to any work situation

Workshops → Group work → Presentations

The diagram illustrates the adaptability of se:lab furniture for three work situations: Workshops, Group work, and Presentations. Each situation is represented by a clock icon and a set of furniture icons. Workshops show a single table and chairs. Group work shows two tables and chairs. Presentations show a single table and chairs. Arrows indicate the flow from Workshops to Group work to Presentations.

Stay mobile: Many se:lab products are equipped with castors,
making them easy to take along or reposition

The interior design colours follow the Sedus colour scheme "Urban Living" – more information can be found on page 48.

se:lab

Ideas are free

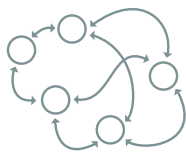

Different structures, different requirements, new work concepts: Modern offices are increasingly being transformed into open spaces and are characterised by communicative in-between zones, decentralised work areas and different types of rooms. There is a need for more flexibility in order to give free rein to thoughts and ideas. For productive and creative work in agile teams – exactly what se:lab optimally supports.

Experience the se:lab family in action in the video on our website

The name already reveals that the approach to tasks was inspired by laboratory work. se:lab works in the same way as analysing, researching and problem-solving takes place in a lab. Whether for workshops where flexible furniture is required or for spontaneous meetings that benefit from the use of mobile equipment, se:lab offers plenty of possibilities and is always ready for use.

Typical use scenarios for se:lab are:

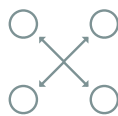

Agile working

(Planning examples from page 28)

Being flexible, agile and spontaneously productive in freely configurable work areas

Typical applications:

- Project organisation with Scrum
- Kanban management method
- Solving problems with Design Thinking

Smart working

(Planning examples from page 32)

Changing between fixed and flexible workplaces with predefined or free structures

Typical applications:

- Open-plan offices and open spaces
- Lounges and creative areas
- Bench and desk sharing

Multifunctional rooms

(Planning examples from page 36)

Use free space as it is needed – without compromise

Typical applications:

- Seminar rooms
- Meeting rooms
- Rooms for training courses

DESIGN THAT FITS, ALWAYS

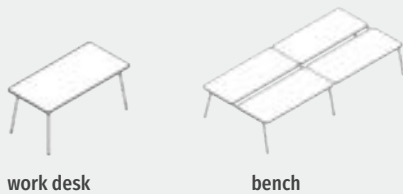

A high-performance system

se:lab products follow a modern, harmonious design language with high recognition value. All components can be individually combined and allow great freedom of design. Thanks to their lightweight construction, castors and other details, they can be operated intuitively and wherever needed. se:lab can also be easily combined with other Sedus products such as the se:fit standing seat or the se:motion swivel chair.

The interior design colours follow the Sedus colour scheme “Smart Balance” – more information can be found on page 48.

se:lab work desk

- Height: 740 mm
- Optional: castors

Single and team desks

se:lab work desk – straightforward work desk for every occasion

Whether as a single workplace or as a conference table, se:lab work desk promises easy and flexible working. The four-legged desk with a modern design can be used for any work situation, almost anywhere. Optional castors enable it to be moved freely throughout the room.

se:lab bench – collaboration made easy

Whether temporary work or in project teams, collaboration or open interaction: se:lab bench brings all these needs together. Depending on work requirements and available space, group and team workplaces can be planned and realised as individually as is best for productivity and atmosphere.

se:lab bench

- Height: 740 mm
- One-piece or two-piece table top

Whether temporary work, event-driven use by project teams or permanently assigned team workstations: bench working, i.e. working together at large desks, is nowadays indispensable.

se:lab

Desks for sit-stand working

se:lab e-desk and e-desk A (T-leg and A-leg) – electric workstations

As a height-adjustable workstation, se:lab e-desk offers pragmatic solutions and focuses on alternating between a sitting and standing position. Thanks to its design and the round motor columns, the desk can be harmoniously combined with other se:lab products.

se:lab e-desk

se:lab e-desk A

se:lab e-desk, e-desk A

- Electric height-adjustment:
650–1280 mm
- se:lab e-desk A with optional castors

se:lab twin

- Electric height-adjustment: 650–1280 mm

se:lab twin – electric double workstation

Efficient use of office structure and space: se:lab twin is a double workstation that meets these requirements and at the same time encourages a regular switch between a sitting and standing position. The design language and modern look are ideal for bench or spine configurations and agile team offices.

se:lab tableboard – sit-stand table with whiteboard functionality

se:lab tableboard is a desk that is perfectly adapted to the needs of contemporary office concepts by enabling dynamic working. It is a motorised, height-adjustable mobile desk that can be stacked and stored in a space-saving manner due to its folding desktop. Ideal for agile working styles: Optionally, the desk can be equipped with a rechargeable battery and thus be adjusted in height independent of location. The highlight: The vertically swivelling desktop can be equipped with a writable surface, in addition to the standard melamine colours. This turns the desk into a practical whiteboard in no time at all.

se:lab tableboard

- Motorised, height-adjustable: 715–1345 mm
- Stackable in a space-saving way
- With castors (lockable)
- Optional: table top with writable surface, or writable and magnetic whiteboard surface
- Optional: Wireless power supply via rechargeable battery

se:lab

Conference desks

se:lab meet desk & se:lab high desk – meeting tables for sitting and standing

The se:lab meet desk ensures simple and flexible working for teams. The se:lab high desk brings together all the advantages of the modern high desk concept – for example, for applications in office central zones or work cafés. The stylishly designed four-leg desks can be used almost anywhere and can be freely moved in the room with the optionally fitted castors.

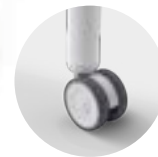

se:lab meet desk

- Height: 740 mm
- Optional: castors

se:lab high desk

- Standing height: 1050 mm or intermediate height: 900 mm
- Optional: castors

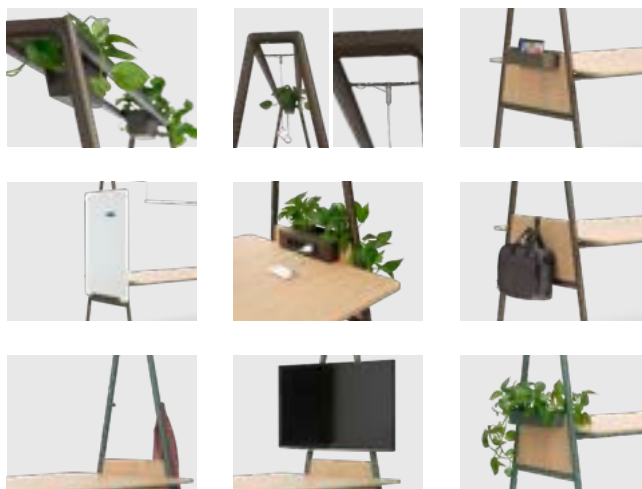

se:lab island – multifunctional meeting island

The versatile group table encourages collaboration and serves as a central meeting point for teams. Two model versions enable ergonomic working while either sitting or standing. A practical superstructure and a variety of accessories make this meeting island a visual highlight with added functional value.

Options/accessories

- Side panels
- Storage tray on one side
- Power supply with storage tray
- Planter element for storage tray
- Planter for the 3rd level
- Light fixture
- Monitor holder
- Bag holder
- Whiteboard mount
- Coat hook

se:lab island

- Table top at sitting height (740 mm) or standing height (1050 mm)
- With angular or rounded table top corners
- With castors and adjustable glides

se:lab meet & stand – the height-adjustable meeting table

Comfortably alternate between sitting and standing – even during a meeting. The se:lab meet & stand makes it possible due to its motorised height adjustment. Depending on the room size and design, the desktop is available in a square or rectangular shape and also with rounded corners.

se:lab meet & stand

- Motorised height adjustment: 650–1250 mm
- Square or rectangular
- Depending on size, for up to 10 people in the sitting area

se:lab fold – space-saving folding table

The timelessly designed folding desk is an all-rounder for different working environments, making it possible to quickly create and reorganise spaces. Due to its folding mechanism and an optional lightweight board, the desk is particularly easy to fold together and can be stored in a space-saving way. As an option, se:lab fold is also available with castors, which are barely visible and are elegantly integrated into the table leg. To move the desk, simply lift one side and push it. Furthermore, the stacking trolley enables space-saving storage for up to twelve desks.

se:lab fold

- Height: 740 mm
- Optional: castors
- Optional: stacking trolley (for up to 12 desks)

The stacking protection protects the desks from damage during transport and stacking.

se:lab flip – agile table for multifunctional spaces

With numerous table top sizes and shapes as well as many customisation options, se:lab flip can be adapted to its surroundings, making it a valued participant at any event. Thanks to its castors, se:lab flip can be effortlessly moved around the room, and when not in use, it can be folded up and stowed away to save space in just a few simple steps.

se:lab flip

- Seat height: 740 mm
- Lockable castors
- Optional: modesty panel, rubber edge,
- Intelligent electrification, with linking
- Wide range of table top shapes and sizes:

se:lab rack – mobile easel

Creative minds use se:lab rack for workshops, agile meetings and teamwork. Equipped with se:lab board, plenty of space is available for creative processes and agile work. The castors make the easel easy to move. It can hold up to four se:lab boards.

se:lab

Workshop tools

se:lab boards – portable whiteboards

se:lab boards are light, portable whiteboards that can be taken everywhere, thus promoting agile work. Both sides of the whiteboard have a writable, magnetic surface which is also suitable for post-its. se:lab boards are available in two sizes and can be used at workstations, for workshops or spontaneous meetings.

se:lab board

- Size M: 1300 x 900 mm (6.5 kg)
- Size L: 1800 x 900 mm (8 kg)
- Can be used vertically and horizontally
- Magnetic and writable on both sides

A rubber strip is inserted in the frame to ensure that it stands safely on smooth floors

se:lab rack

- Up to 2 boards L vertically, up to 4 boards M/L horizontally
- Can be used on both sides
- Also usable as a room divider
- With boards it fits through all standard doors and in lifts

se:lab caddy – transport trolley

se:lab caddy supports the development of ideas and the possibility to share them with others – no matter where in the company work is done. As a transport trolley, it can hold up to ten se:lab boards. You can also attach a large whiteboard, upright, to each side, to work directly on it.

se:lab caddy

- For up to 10 se:lab boards
- With magnetic mount
- Also usable as a room divider
- With boards it fits through all standard doors and in lifts

se:lab monitor caddy – mobile monitor caddy

Easy information exchange in video conferences, workshops and agile meetings – made possible with the se:lab monitor caddy. With its comprehensive technology integration and castors, it can be used flexibly and independent of location.

se:lab monitor caddy

- For monitors of 34–90 inches and a weight of up to 50 kg
- Motorised height adjustment: 700–1350 mm
- Manual switch with memory function
- Five-metre connection cable
- Integrated 3-way socket
- Shelf for placing a laptop

Zoning with added value

Individual configuration, mobile partitioning and maximum flexibility for creative as well as productive work – every working environment is made functional and homely due to practical solution approaches.

se:lab fabric wall

- Sizes: W 1260 x H 1900 mm, W 1400 x H 1900 mm
- Covered with pinnable fabric on both sides
- Lockable castors
- Stackable in a space-saving way

se:lab pin & write

- Size: W 1260 x H 1900 mm
- Front and back in different designs
- Whiteboard side: writable, magnetic, Post-it compatible
- Cork side: pinnable
- Lockable castors
- Stackable in a space-saving way

The colour scheme corresponds to the Sedus Urban Living colour concept – for more information, see Page 48.

se:lab monitor wall

- Sizes: W 1700 x H 1900 x D 200 mm, W 1400 x H 1900 x D 200 mm
- Lockable castors
- Depending on the size, for monitors up to 65 inch
- 5-metre connection cable
- Optional: Technical integration with HDMI through-type coupling and/or power and/or USB-A/C
- Optional: Back panel as a pinnable fabric element or ready to accommodate a se:lab board (Size M)

se:lab mobile planter

- Size: W 1400 x H 1900 x D 200 mm
- Lockable castors
- Removable attachments for the planter tray

se:lab hopper – workshop stool

se:lab hopper is the ideal addition to workshops, project meetings or agile work settings. With a comfortable height of 690 mm, this seating furniture promotes spontaneity and interaction. The workshop stool is easily movable and manoeuvrable. It can be stacked or nested to save space when not in use.

se:lab hopper

- Seat height: 690 mm
- Size: 565 x 415 mm
- Stackable (up to 3 chairs high)
- Nestable

se:lab sofa and sofa single – mobile and adjustable sofas

Easy to move and flexible, se:lab sofas present themselves as the ideal partners for agile workshop situations and spontaneous interaction. The comfortable seating furniture with its generous upholstery allows the user to adopt a variety of postures – sitting upright as well as leaning back in a relaxed manner. Exceptionally soft and comfortable, the sofa, as a single- or two-seater, creates an informal atmosphere in any space.

se:lab sofa

- Size: 1700 x 980 x 725 mm
- On castors
- Light and manoeuvrable

se:lab sofa single

- Size: 880 x 980 x 725 mm
- On castors
- Light and manoeuvrable

se:lab tray

- Suitable for any table top
- Internal dimensions: 350 x 225 x 70 mm
- Optional: lockable
- Metal casing
- Insert made of PET felt (light grey or anthracite)

se:lab

Practical accessories

Small extras with a big effect: the cleverly-designed accessories enhance the functionality of the se:lab product family even further. Coat hooks with flexible mounting options, retrofittable drawers, or the smart whiteboard set with magnetic storage for markers, sponges and more – everything has its place here. Bringing order, comfort, and efficiency to your every day work.

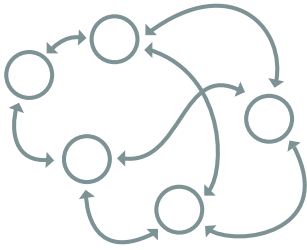

se:lab workshop starter kit

- Magnetic box
- 4 whiteboard markers
- 1 whiteboard sponge
- 10 magnets
- Pins

se:lab coat hook

- Accessible on both sides
- Suitable for se:lab fabric wall and se:lab pin & write
- Made from PET felt (light grey or anthracite)

SOLUTIONS FOR

Agile working

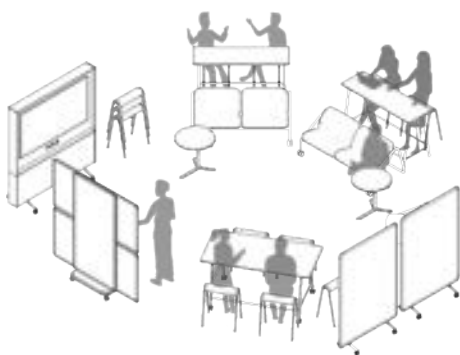

Our agile solutions are particularly suitable for companies whose workflows and working methods are geared towards continuous interaction and active collaboration. The work areas are designed in such a way that they promote dynamic processes and are always suitable for the respective situation. Mobile furniture that can be used intuitively and spontaneously is essential for this – so that innovative ways of thinking and new ideas develop on the spur of the moment.

Typical applications:

- Project organisation with Scrum
- Kanban management method
- Solving problems with Design Thinking

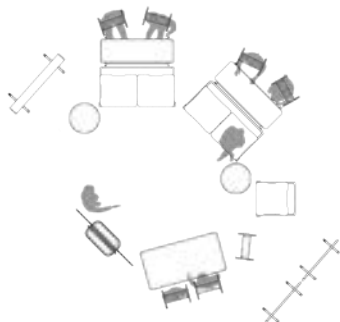

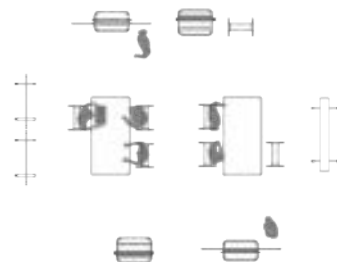

Arena

Room designed for supporting active participation in collaborative and communicative work as well as presentations.

Creative lab

Room or area designed for unrestricted teamwork or collaboration. The various activities and work processes follow a defined schedule, which may cover several days.

Solutions for agile working

Space requirement: 20 – 48 m²

Team sizes: up to 10 persons

	caddy + board	rack	pin & write	monitor caddy	monitor wall	high desk	island	sofa + sofa single	hopper	other products
Arena	0+2	1	2	-	1	3	-	2	10	x
Creative lab	2+12	2	2	-	1	2	-	-	9	-
Pop-up brainstorming	1+6	1	2	1	-	-	-	-	-	x
Project room	1+6	1	2	-	1	-	1	1+1	5	x

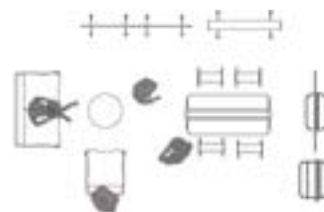

Pop-up brainstorming

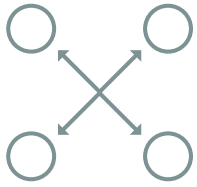

Area equipped with mobile furniture, comprising a whiteboard and folding stools. The result is a zone that is created quickly and at short notice encouraging collaboration and supporting activities such as brainstorming or presentations.

Project room

Room dedicated to teamwork on a project or a specific topic. Equipped with furniture and utensils that allow the team to work undisturbed in a collaborative mode for one or more days.

SOLUTIONS FOR

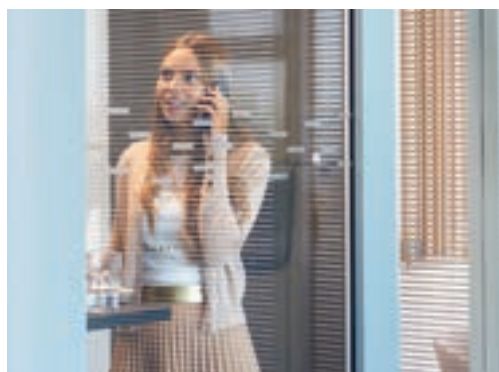

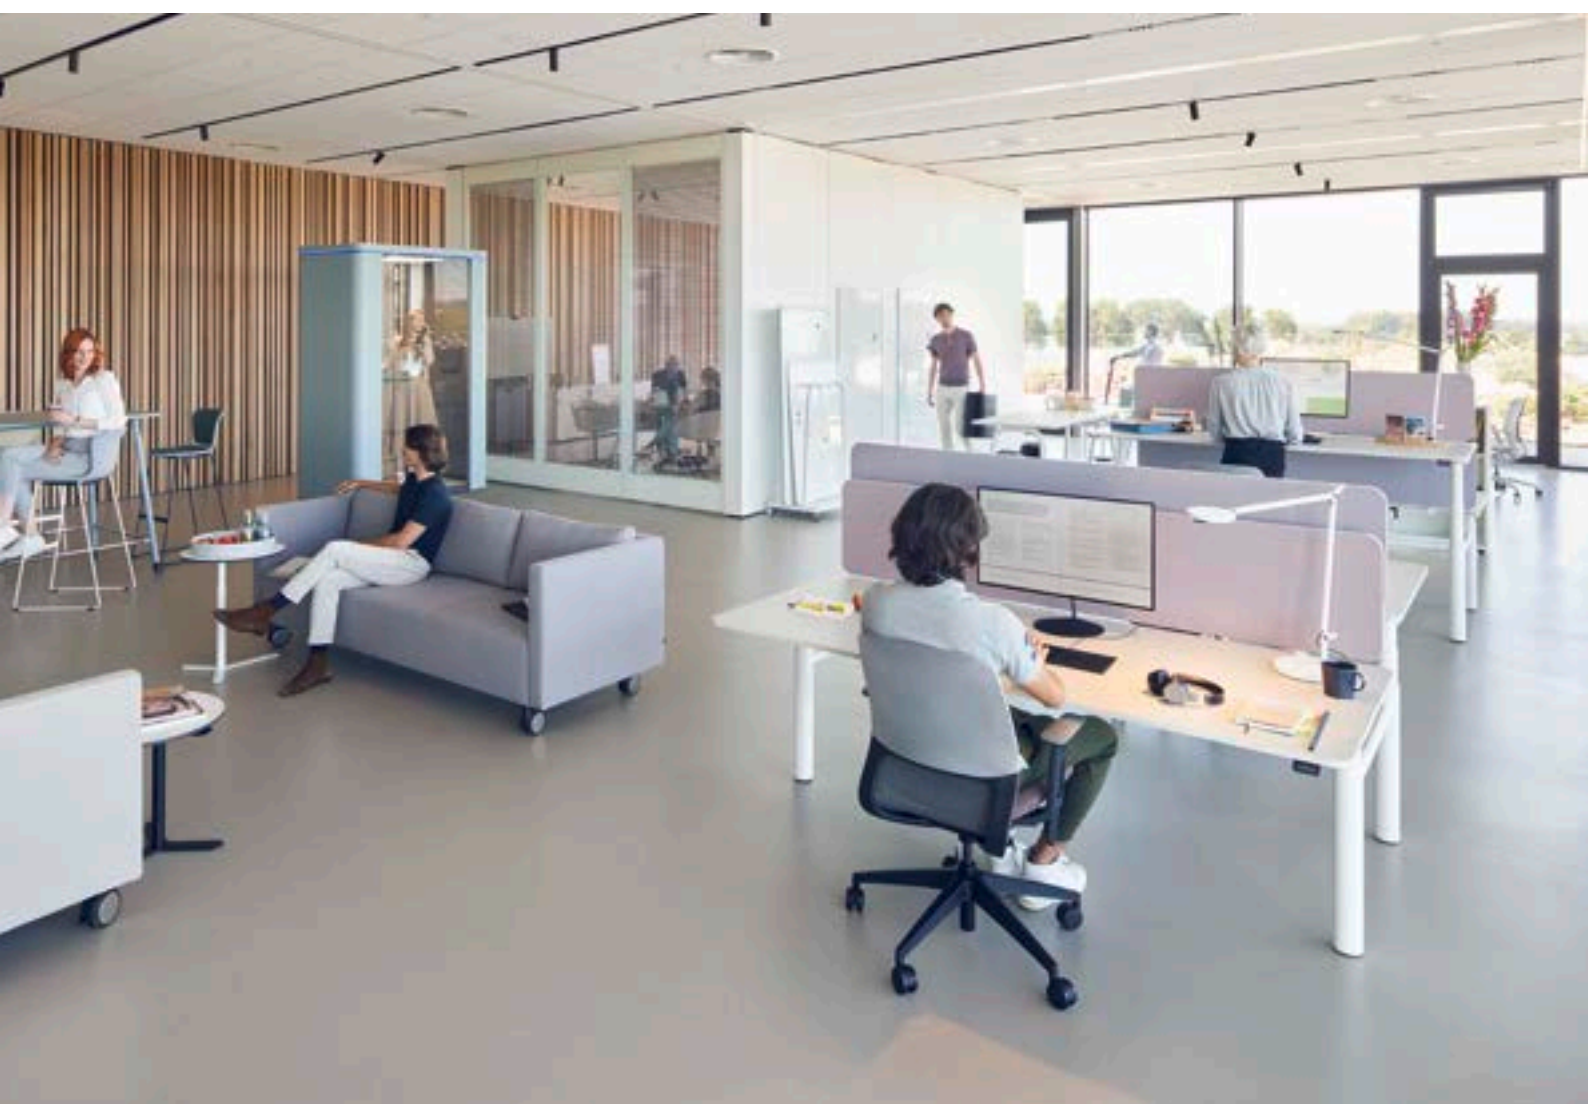

Smart working

Smart furnishing solutions are particularly suitable for companies characterised by structured work processes and clearly defined and organised collaboration. By combining different pieces of furniture, areas can be designed to meet specific requirements. The environment created is suitable for multiple situations and supports individual working methods.

Typical applications:

- Open-plan offices and open spaces
- Lounges and creative areas
- Bench and desk sharing

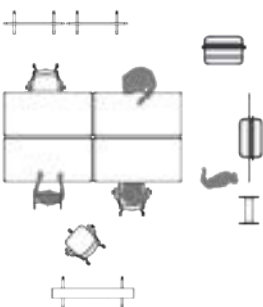

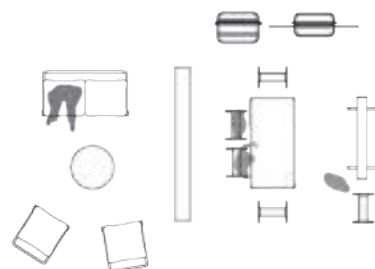

Shared work area

Work area with desks (fixed or adjustable height) and mobile furniture to encourage dynamic collaboration.

Creative corner

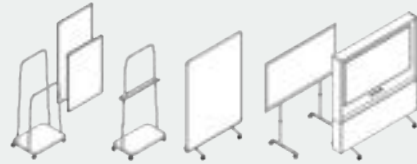

Collaboration zone with informal work area. Equipped with fixed and mobile workshop elements to support brainstorming, presentations, video brainstorming (interactive screen).

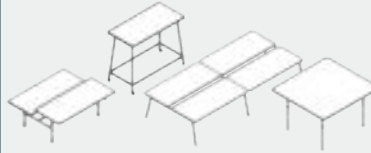

Solutions for smart working

Space requirement: 19 – 32 m²

Team sizes: up to 6 persons

Depending on the working style, a suitable se:lab desk can be combined with various workshop tools

	caddy + board	rack	pin & write	monitor caddy	monitor wall	e-desk twin	high desk	bench	meet & stand	hopper	sofa + sofa single	chairs
Shared work area	1+6	1	2	-	1	2	-	-	-	1	-	4
Creative corner	1+6	1	-	-	1	-	1	-	-	7	1+2	-
Teamwork	1+6	1	2	-	1	-	-	1	-	-	-	4+4
Team meeting	-	-	4	1	-	-	-	-	1	-	-	4

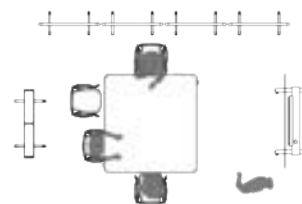

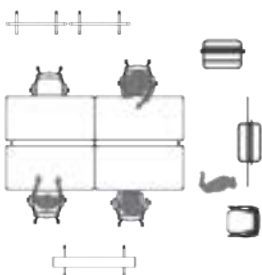

Teamwork

Area with team desk and standing desk. Equipped with mobile workshop elements for collaborative activities in a participative, dynamic and visual way.

Team meeting

Room with workshop elements that enable meetings in a collaborative and dynamic form.

SOLUTIONS FOR

Multifunctional rooms

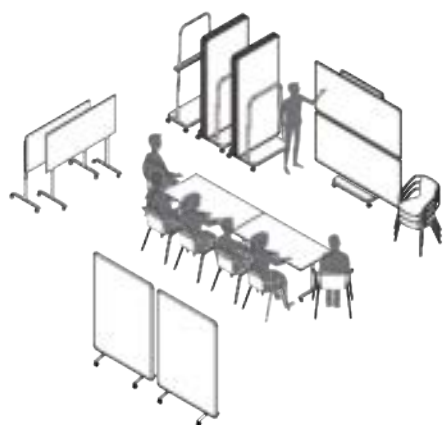

Multifunctional solutions are particularly suitable for companies whose working methods and requirements are constantly changing. The rooms can be used in different ways and the furnishings can be rearranged again and again, so that they can be easily adapted and used for different activities, for example for meetings, training sessions, workshops and presentations.

Typical applications:

- Seminar rooms
- Meeting rooms
- Training sessions

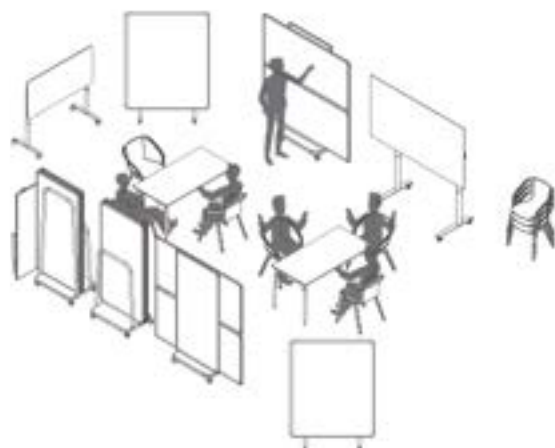

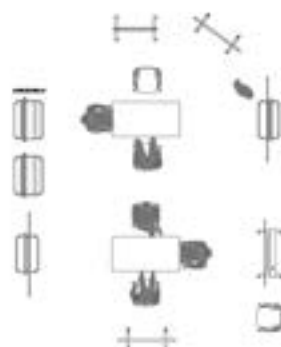

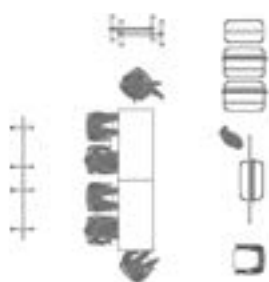

Training course

Room equipped for training courses with desks, chairs, monitors and whiteboards. The set-up is similar to a classroom.

Workshop

Furniture constellations that support workshops and creative activities and can also be easily rearranged to be optimally adapted to changing tasks and situations.

Solutions for multifunctional rooms

Space requirement: 30 m²

Team sizes: up to 9 persons

The room is equipped with mobile, foldable and stackable furniture. This makes it possible to work together in a variety of ways and to easily set up the furniture according to the number of people.

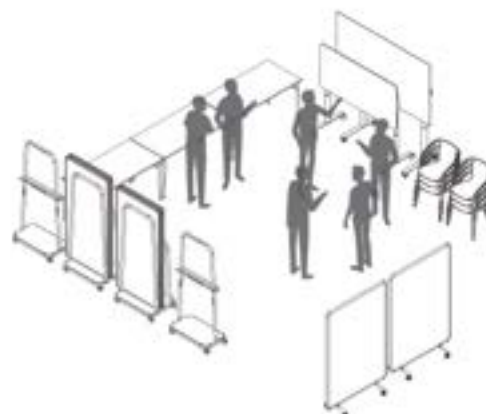

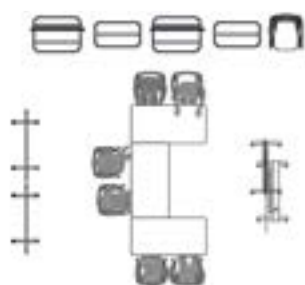

Depending on the working style, a suitable se:lab desk can be combined with various workshop tools

	board	rack	caddy	pin & write	monitor caddy	tableboard	fold or flip	chairs
Training course, workshop, meeting, stand-up presentation	12	2	2	2	1	1	3	9

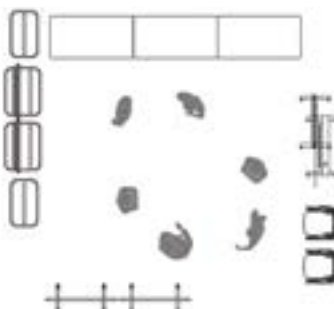

Meeting

Room equipped with desks, chairs, monitors and whiteboards for meetings, presentations and team-work activities.

Stand-up presentation

Room equipped with desks, chairs, canvas and boards for organising stand-up presentations that can be combined with refreshments.

se:lab desk overview

Particular design features of se:lab are the frames made of round tubes in various stylish colours and the rounded corners of the desktops (radius 50 mm). The standard thickness of the desktop is 19 mm. For greater agility, many desks are available with castors.

As versatile as the surroundings

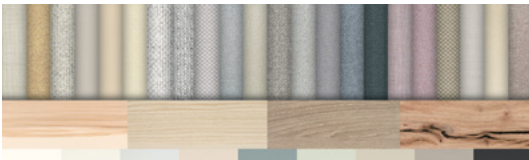

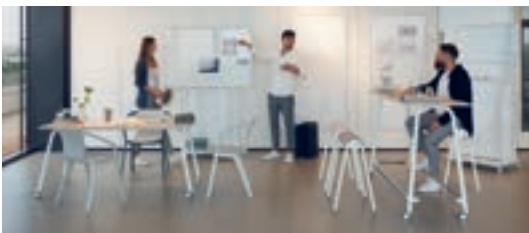

A harmonious working environment contributes significantly to well-being and productivity. Well-conceived furnishings, pleasant fabric and material combinations as well as a choice of colour accents are key factors for achieving this goal. Whether Smart Balance, Soft Being, Urban Living or Multi Creation – se:lab products can be modified to suit any of these colour schemes.

Do you need support in planning and implementation?

The experts from Sedus Workspace Design Team are looking forward to helping you design your modern smart office. From analysing the floor plan and designing the concept to choosing the colour from the Sedus Colour Cookbook – Sedus offers everything from a single source.

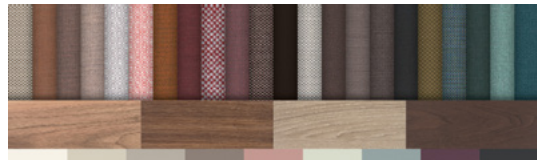

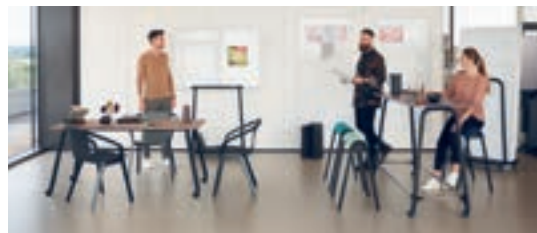

Smart Balance

light, reduced, quiet, structured,
functional, technical

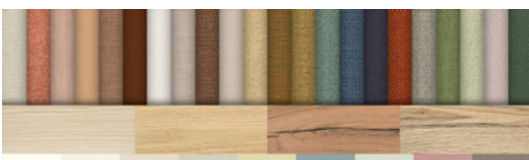

Urban Living

comfortable, respectable, elegant,
urban, intense, timeless

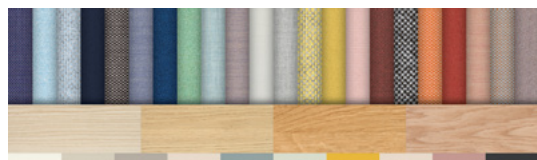

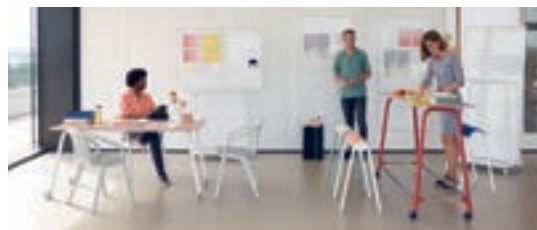

Soft Being

gentle, calm, balanced, natural,
inviting, regenerative

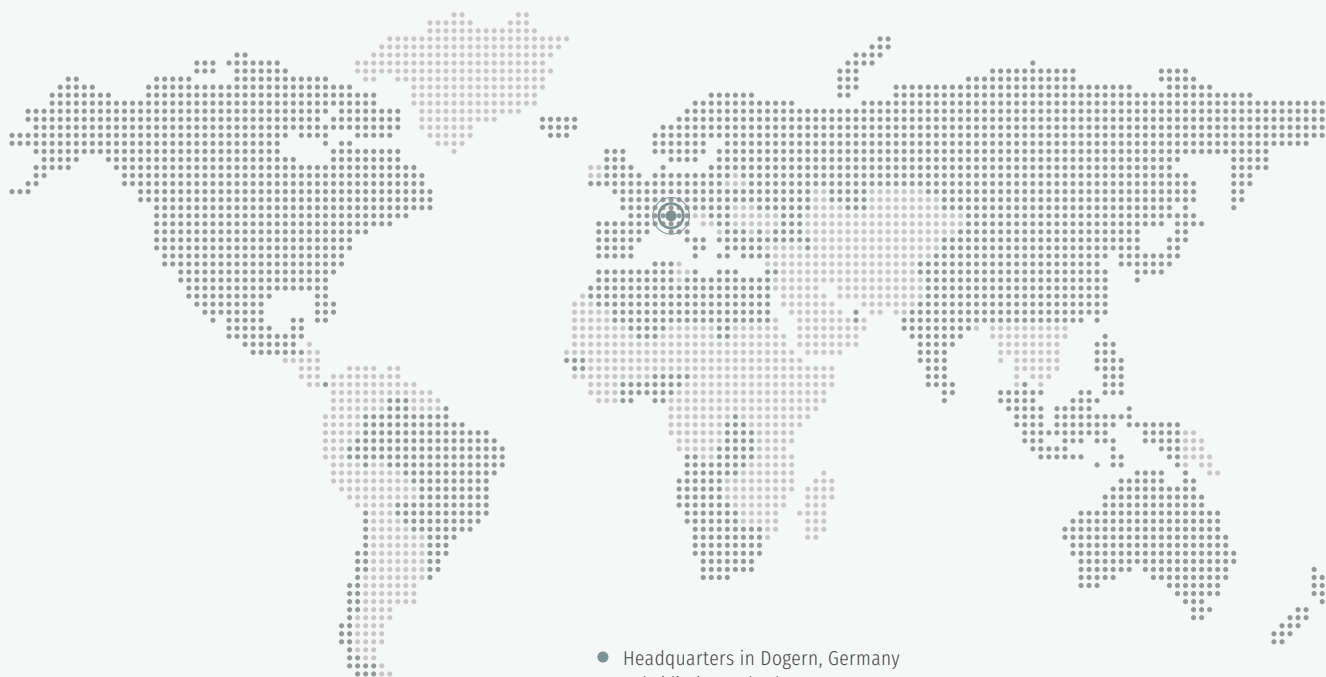

Multi Creation

motivating, inspiring, creative,
dynamic, active, open, free
