

Centro

Product Brochure

Centro

Design by Roger Webb Associates

Centro is a collection of statement workplace tables, stools and benches for meeting, collaborating and socialising. Centro has been designed to be the heart of a space and a centre of activity. The solid oak framed table has a steel support structure coupled with a hard-wearing laminate top, creating a valuable addition to any work space. Each table can be enriched with power units and cable management through one leg to support a multitude of uses. Diner or poseur height tables are available in five sizes, with matching stools and benches completing the range.

Centro
