

Allt

Creating meaningful destinations in
the contemporary workplace

orangebox

Product Description

Allt team tables create meaningful destinations in the contemporary workplace. With its shelf, size and stature, Allt is a significant presence within open-plan environments; a calm oasis in an otherwise distracting workplace.

Made from solid European oak, the Allt table range is a companion product to the successful BAE collection of worktables. Allt delivers the robust and durable performance demanded from large-scale collaborative tables, yet, thanks to a structure that's been consciously reduced to the minimum, succeeds in having a light footprint .

Allt's refined leg architecture is designed to provide as much free leg space as possible, and is a celebration of contemporary lines, natural wood and craft manufacturing.

The raised shelf conceals a convenient LED task light and is positioned to offer visual privacy at seated eye-level.

Wood is Good. Allt's solid oak frame is sourced from a carefully selected and managed renewable forest. And, in our continued drive to make every Orangebox product as environmentally smart as can be, we have also endeavoured to keep the materials and processes involved in its production to the minimum.

To deliver easy-access worktop power, the floor cable feed is concealed within the wood frame, ensuring the elegant and refined structure isn't compromised by unsightly cable risers.
